What We Do

SELECT ASSETS

We carefully select financial assets and their instruments, which have a high record of performance, and great future prospects. We then offer these assets to investors.

TRADE ASSETS

We have a team of seasoned traders and market analysts who handle trades on behalf of our investors. Our traders combine analysis from artificial intelligence with human expertise.

MANAGE ASSETS

We manage these trades on behalf of our investors, provide guidance to them on how to reinvest or plan for future financial security, and generally how to achieve their wealth goals.

We Keep Your Money Safe

Over \$5B and counting - More than 153,000 people trust over \$5 billion with ironcoininvestment.ltd
Ironcoininvestment.ltd is backed by \$3.9 billion in investment from some of the world's largest financial institutions.

We use advanced data encryption when handling your financial information and two-factor protection (2FA).

We're building the world's most human financial company.

We understand that our clients are humans with dreams, and that we are partners of their dreams. Our goal therefore, is to build the company that is committed to helping investors set and achieve financial goals within the shortest time possible.

Our Crypto Assets

Our crypto selection combines top-performing cryptocurrencies and crypto indexes to give a selection of high profit, low risk instruments. We trade cryptocurrencies across major exchanges, trade arbitrages, HODL volatile coins, and track crypto indexes.

Bitcoin

Bitcoin (BTC) is the first and most valuable cryptocurrency on the blockchain. BTC has done nearly 9 million % increase since its inception, and will continue to do more.

Altcoins

Altcoins make up for nearly half of the market capitalization of the crypto currencies market. The top performing altcoins have done nearly 1 million % in growth, given investors profit.

Crypto Indexes

Our CRYPTO20 Index tracks the performance of the top performing altcoins in the crypto space and profits when they profit. We hedge this index against losses, however.

Trading and Arbitraging

In crypto trading and arbitraging, we trade cryptocurrencies based on demand and profit from marginal differences in price. In arbitraging, we buy in the low markets and sell in the high markets.
